Reception Screens

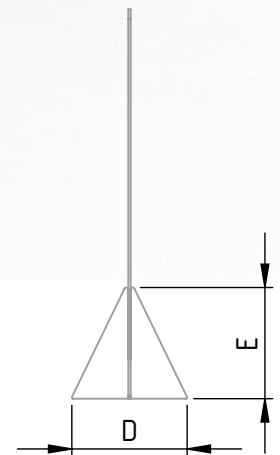

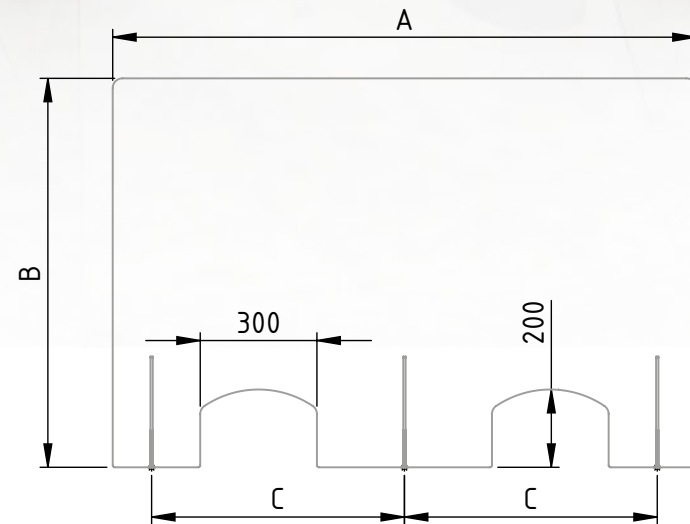

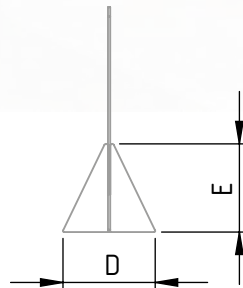

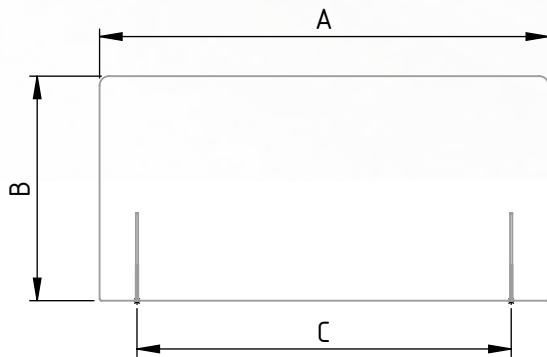

Part No: RS-60-60-B

Part No: RS-90-80-C

Part No: RS-150-100-C

Please see **p.g. 4** for full size range.

Manufactured using transparent perspex panels, all our screens are specially-engineered to withstand high levels of usage whilst retaining all of their protective capabilities, functionality and aesthetic appeal. To ensure easy installation regardless of the environment in question or the availability of specialist equipment, each screen system is built simply by slotting one panel directly into another. This not only allows for a completely tool-free assembly but also means that screens can be transported in flat-pack, thereby reducing delivery costs.

All standard screen sizes and corresponding prices are detailed below. Screens can also be manufactured according to custom dimensions on request. For more information and advice about what solution will be best suited to your individual requirements, please get in touch with our team today.

Modular System Screens

Keep your distance with your clients. Clear Hygiene Barriers made of acrylic and aluminium will help to keep a distance and protect from any particles in the air. They can be placed next to each other to cover wider desks or cashiers. The height of the clear panel can be adjusted easily by sliding in the vertical profiles.

Counter Top

Feet can be fixed down by screws, Velcro or high bond tape.

Free-standing Screens

FREE-ST6-180x100

- Creates a protection barrier against direct coughs and sneezes.
- Creates a physical division to help social distancing when groups of people share an indoor space.
- Direct the flow of footfall and create barriers that help protect areas without visually blocking any space.
- These kits can be couriered to location and easily assembled in minutes.
- They can be easily moved into a position to give the most protection.
- They are re-usable. Disassembled, reassembled, moved or repositioned.
- They are modular. Create as large a division as needed.
- The transparent screen allows full communication.
- They can be easily cleaned and disinfected regularly.
